

2024 FCNRCD Tree and Shrub Sale

Lake Carmi Campers Association June Pickup Option

The Franklin County Natural Resources Conservation District (FCNRCD) hosts a tree and shrub sale each year with a plant pickup day typically in the first week in May.

Because many Lake Carmi Campers Association (LCCA) members typically do not get to Vermont until June, in 2024, FCNRCD is offering a delayed June Pickup Option with the help of the Franklin Watershed Committee for members of the LCCA.

Any trees ordered by members of the Lake Carmi Campers Association will be held in cold storage until they can be picked up in June; they should be planted immediately after pickup. This storage service will incur an additional \$10/order fee to be paid at the June pickup.

1. Orders can be placed normally here:
franklincountynrcd.org/store

2. When you go to check out, please write: "**Lake Carmi**" under "Shipping" information if you would like to pick up your plants in June.

3. After ordering online, you must also **email** **info@FranklinCountyNRCD.org** with your name, order number, and an estimate of when you will be able to receive your plants in June. We will work with you to coordinate plant delivery.
